

Monmouth Rambling and Hillwalking Club

Programme For Walks June 25 - August 25

Please note that Walk Leaders should pre-walk their route and advise on the Walk Leader Form of any relevant risks (such as steep climbs, risky river crossings, steep drops etc.)

Insurance - The only cover provided is Public Liability: the damage or injury that any member of the Club may cause to a third party or property. Walkers walk with the club at their own risk and therefore need to be mindful of and responsible for their own safety.

Appropriate clothing and footwear is essential and bring packed lunch and drink.

Walks start at 10am. Departure Time from Rockfield Road Car park (RRCP) is given for each walk.

Car sharing: Fuel contribution is calculated at 30p per mile, shown as cost per car for each walk, to be shared equally between the number of people in the car. It has been increased to reflect the rise in costs of running a car. Please read the notes on car-sharing in the Club's Guidance for Members Revision C, dated 21 Aug 2021.

No dogs please.

On the first Sunday of each month there will be a longer, more strenuous walk for those members who enjoy a more challenging day. There will be alternative short walks on the 1st Sunday and also on the 3rd Sunday of each month. Please see programme below for details.

The short walks are intended for those members who prefer a less demanding walk and a more leisurely pace. All our walks will be paced at the speed of the slowest walker. Please assist the walk leaders by not getting too far ahead of the leader, especially when the pace is leisurely.

Covid - see our revised Guidance for Members Revision C, dated 21 August 2021. All participants need to have signed the declaration form to say they have read and agree to abide by these guidance notes.

Please book in with the walk leader, by 2.00pm on the previous day, so that we know who's coming on the walk.

Note - to ensure the health and safety of attendees, a walk must have at least 4 participants. The leader must cancel the walk if numbers fall below 4.
